

You have been chosen to design the Hidden pictures section for HighLights Magazine. It can be in color or in black and white but you must have a key for what the children should be able to find and all images should be hidden within the picture. Below is an example. You will find LOTS of hidden picture examples online. **HOWEVER** you are to make yours up on your own. You may use a pre-existing color page, but it can not have hidden pictures already in it. Don't waste your time, I will know because you will be submitting the native file type (.PSD or .AI). **You will submit TWO files. One of the native file you created and one of a key finding the objects.**

Criteria	Points	Possible Points	Teacher Notes
Your image is creatively and originally produced.		35	
You have at least 15 objects.		30	
You have a key for your hidden objects		20	
You submit another page that finds the objects.		15
